I'm out now as well. Can NTUA run metals analysis for us?

**Subject:** Heads up about the August 12, 2015 NGWSP Regulatory Meeting

Just a heads up. With the recent spill of contaminated water into the Animas River and the potential of the water to impact some of the water systems on the Navajo Nation, Yolanda Barney of Navajo EPA and I may not be able to attend the August 12, 2015 meeting at the Twins Arrows Resort. We are assisting with providing information for the response activities. We will not know if we will be able to attend the meeting until Tuesday, August 11.

The meeting can still be held without us, if there is someone that wants to lead the meeting. Another option is to reschedule the meeting. Please let me know which way you want to go.

We apologize for this late notice, but things have been happening pretty fast.
